

## **CARDIGUARD**

### **Product description**

Cardiguard® is a complementary feed for dogs. Cardiguard® has a very high content of the omega-3 fatty acids EPA and DHA, which are supportive of heart health.

### **Use**

Two pump strokes per 5 kg bodyweight per day mixed with the feed.

### **Composition**

High omega-3 fish oil.

### **Additives**

Tocopherol rich extracts (vitamin E) of natural origin, artificial meat flavour.

### **Contains**

Crude fat = 100 %

Crude protein, ash and fibre < 0.3 %

Cardiguard® contains 78% omega-3 fatty acids in triglyceride form and delivers 420 mg eicosapentaenoic acid

(EPA) and 280 mg docosahexaenoic acid (DHA) per ml.

Each pump stroke delivers 0.2 ml. One bottle contains approximately 215 pump strokes.

### **Precaution**

Flammable materials like cloth and tissue soaked in Cardiguard® may under certain conditions self combust

due to oxidation of the oil. To avoid this rinse the material with water before disposal.

Store below 25 °C

This is not a veterinary medicine which is subject to authorisation by the Irish Medicines Board.
